

JOB DESCRIPTION

Position Title:	Associate – Green impact evaluation
Role type:	Permanent
Location:	Edinburgh

Introduction

The Green Investment Ratings Team of the Green Investment Group Limited (GIG) is seeking a highly motivated recent graduate qualified in an environmental science or related subject (or a current student graduating in 2018), to help GIG support the transition to a low carbon, sustainable global economy. The role will focus on assessing, monitoring and reporting on the environmental benefits ('green impact') associated with green investment. This Edinburgh-based role, reporting to a Manager, will involve working in the Green Investment Ratings Team as it supports the international expansion of GIG. The successful candidate will be responsible for assessing, monitoring and reporting on the green impact and rating of investments by GIG or third parties.

You are, or are soon to be, qualified in an environmental science or related subject, ideally at a post-graduate level, and are interested in, or have already demonstrated, the application of environmental science within green infrastructure development and investment banking.

Your academic training will have provided you with a technical understanding of environmental issues, to enable assessment of projects' environmental characteristics and risks. You will also have the ability to review and summarise large quantities of environmental information, and summarise the environmental benefits (green impact) of investments for review. Quantification of the green impact of investments is a key feature of the role, so strong numeracy skills and ability to handle data are essential.

In addition to presenting information to GIG's management and investment staff, the role will also involve engagement with GIG's external stakeholders, and so requires good oral and written communication skills.

GIG has developed a unique approach to assessing, monitoring and reporting the green impact of investments. More information on this approach can be found on our website: <http://greeninvestmentgroup.com/green-impact/>

Green Investment Group (GIG), a member of Macquarie Capital, is a specialist in green infrastructure principal investment, project delivery and portfolio management, and related services. Its track record, expertise and capability make it a global leader in green investment, dedicated to supporting the growth of the global green economy.

Macquarie understands the importance of diversity and inclusion - our long history of success has come from being different. At Macquarie we value the innovation and creativity that diversity of thought brings. The one thing we all have in common is our focus on high performance. If you're capable, motivated and can deliver, we want you on our team.

Macquarie is an equal opportunities employer and does not discriminate on the grounds of age, disability, sex, sexual orientation, gender reassignment, gender identity, marriage, civil partnership, pregnancy, maternity, race (including colour and ethnic or national origins), religion or belief.
